<ul style="list-style-type: none"> <li><b>Standard Maintenance</b> is a monthly service fee that covers the service work (labor &amp; parts) for the life of the system. Standard Maintenance covers systems with 10 components or less. Maintenance packages are available for larger systems. See maintenance agreement for details.</li> <li><b>AlarmNet Transport</b> is the transmission of alarm signals over the cellular network (GSM) or internet (IP).</li> <li><b>Total Connect Basic</b> allows users to arm/disarm their systems from a smartphone, tablet, or computer.</li> <li><b>Total Connect Premium</b> adds the ability to see full event logs and receive unlimited text or email notifications on system activity.</li> <li><b>Advanced Pro Logic</b> guards security systems from burglary defeat for added protection.</li> <li><b>GSM High Usage Account.</b> YK Communications recommends that all monitored systems be connected to a landline/telephone line for the most reliable security, however, we can accommodate systems to be purely connected over the cellular network, but requires additional fees for a higher level of signals being sent over the cellular network.</li> </ul>				
<b>Optional Features &amp; Add-Ons</b>
